Sample COA (Watermarked Example)

This is a format example only. Values are illustrative placeholders. Request Full COA for batch release data.

How to use this sample

- Use for formatting reference during supplier screening
- Do not treat the values in this sample as batch data
- Request Full COA for your target grade and lot

Typical COA fields

Identity/phase (XRD), particle size distribution, surface area (BET), key impurities/heavy metals, and packaging/traceability lines.
